Medical Claim-Scrubber

Improve compliancy and increase revenue

Improve your ability to code and bill correctly with claimWizard Pro

One of the main benefits of our claim-scrubber is that it helps users select more precise codes by applying the many built-in medical edits. Our software helps you eliminate coding oversights and ensures accurate coding. It also ensures your claims meet all nationally-accepted coding guidelines and standards. Frequently, this results in less denials and a higher reimbursement level.

The screenshot displays the mdwizards claimWizard Pro interface. At the top, there is a navigation bar with icons for Dashboard, Reference Wizard, E & M, claimWizard Pro, claimWizard Lite, Setup, and Contact Us. A user greeting "Welcome Jessica Bailey" and a "Log Out" link are visible on the right.

The main interface is divided into several sections:

- Patient Information:** Includes fields for Patient Name (Joe Smith), Date of Birth (1/1/2010), Encounter Date (10/7/2013), Gender (M), and Service Type (Outpatient).
- Provider Information:** Includes fields for Name (LISA BERGER), NPI (1003857244), Zip (30309), Payer (10202), State (GA), and Locality (01).
- Diagnosis Codes:** A table with columns for #, Code, and a Remove button. Codes listed include V70.5 and V06.4.
- Procedure Codes:** A table with columns for #, Code, Modifiers, Units, and a Remove button. Codes listed include 90700, 90471, 99392, and 9070.

A dropdown menu is open for the procedure code 90700, showing a list of medical codes and their descriptions:

- 90700 - DIPHTH TETANUS TOX ACELL PERTUSSIS VACC>7 YR IM
- 90702 - DIPHTHERIA TETANUS TOXOID ADSORBED >7 YR IM
- 90703 - TETANUS TOXOID ADSORBED INTRAMUSCULAR
- 90704 - MUMPS VIRUS VACCINE LIVE SUBCUTANEOUS
- 90705 - MEASLES VIRUS VACCINE LIVE SUBCUTANEOUS
- 90706 - RUBELLA VIRUS VACCINE LIVE SUBCUTANEOUS
- 90707 - MEASLES MUMPS RUBELLA VIRUS VACCINE LIVE SUBQ
- 90708 - MEASLES & RUBELLA VIRUS VACCINE LIVE SUBQ

At the bottom left, there is a copyright notice: "CPT Copyright 2013 American Medical Association. All rights reserved."

claimWizard Pro claim-scrubber can substantially increase reimbursements by simplifying the coding process, helping to identify overlooked diagnoses and alerting coders to possible missing procedures. Studies have shown that 15% to 20% of cases marked for review are re-coded for higher reimbursement. Factors such as patient gender, age, diagnoses, procedures and discharge status are used to fine tune the data.
